Be aware that the item will be subject to customs duties and taxes when entering your country which you will have to pay yourself. In addition, package may be delayed in customs.

Delivery, Shipping options, Tracking, etc.

Delivery:

All orders received before 11 am will be processed the same day (or first working day). Be aware, there may be a difference in how quickly we can deliver the individual items. Most orders are packed and shipped from our own warehouse. But some are sent from our partners, which can extend the delivery time by 1-4 business days.

Estimated delivery is stated in the product description under "Specifications".

If a product is on backorder or temporarily sold out, it too will appear in the description of the product, but in the top of the right column where the price is displayed and you choose color, size and quantity.

PLEASE NOTE: Legally, an item is considered delivered when the package is handed over to a shipping company. For this you need to add time for shipping, which is depending on your address and the shipping company you choose when placing your order.

ALSO BE AWARE:

***Rainwear is a seasonal product, and the weather affects sales.
During periods of heavy rain, we are very busy, which can extend the delivery time.***

Shipping options:

There are several shipping providers who serve online stores and their customers. They each have their pros and cons, and there is a big difference in how well they work. We know what works best when shipping. But you (our customer) usually know what works best at the reception. Therefore, if possible, we give you choices.

PLEASE NOTE: However, we reserve the right to create or change your choice of freight if:

- you haven't chosen a shipping company and/or parcel shop,
- the chosen shipping company on the day of dispatch does not deliver to your area,
- several products are co-packed and the shipment thereby falls outside the permitted weight or package size of your selected freight company,
- the selected freight company has technical problems or is out of order for other reasons,
- the delivery will be faster and/or safer with another freight company.

However, if we change shipping company you will always be notified by email.

How to choose shipping and parcel shop:

When you place an order at NORDIC-RAINWEAR, you can see in the shopping cart the shipping options available for your order. You can also see prices and estimated delivery time, and you choose by marking the desired shipping option.

In many countries it is possible to pick up the package in a parcel shop. If you want this, you must choose the delivery location by entering a postcode (to your home address, your workplace, holiday home or any other place in the country where you want to pick up your package). The nearest parcel shops for the selected freight carrier are then displayed in a pop-up window. You must select the parcel shop you want, and press SAVE at the bottom of the window, which then closes. The selected parcel shop can now be seen just below the shipping company you have chosen. If you regret your choice, you can change it by choosing a new freight company and parcel shop once again.

Follow the package (track & trace):

When we send your order, you will receive an email with a package number for tracking your purchase from shipment to arrival at the package shop or at the delivery address.

FREE delivery on Purchases more than DKK 499 (only valid in Denmark)

Orders under 2 kg and over DKK 499 are delivered free of charge for collection in an optional parcel shop in Denmark. *Free shipping does not apply* to products ordered in selection. Here, the actual shipping costs will be deducted from your refund when the products are returned. In addition, some heavy products, which due to size, weight or stock location cannot be sent to a parcel shop. The shipping options will appear in the shopping cart.

You can choose other forms of freight (eg delivery) in exchange for paying additional costs. *PLEASE NOTE: Distribution is considered optional. The extra costs are therefore not refundable if returned.*

Orders under DKK 499 are not delivered free of charge. Shipping options and costs are displayed in the shopping cart when you create your order.

Delivery costs to other countries:

When delivering to other countries in Europe, possible delivery methods will be displayed in the shopping cart once you have selected your country. Free delivery to countries other than Denmark depends on the destination and the size of your purchase. Once, you have selected the recipient country, it will appear in the shopping cart whether you have obtained free delivery.

Exchange (FREE in Denmark for purchases more than DKK 899)

For orders more than DKK 899 (full price), we exchange for FREE in Denmark (there are exceptions). For purchases less than DKK 899, you will have to pay the return costs. However, we will send the new item according to current shipping rules, only to a parcel-shop, and only once.

If you wish to make use of our exchange service, the exchange **must take place within 14 days**. You must therefore contact us immediately and no later than 7 days after you have received your purchase at support@nordic-rainwear.com - and state which item you wish to exchange to. **Remember to state the invoice number!** The item will then be put aside for you and reserved for 7 days. You can download a free EASY return label on our website, which you must print and attach to the return package.

If you cannot get a free exchange, you are in a hurry, or if you want to exchange for a more expensive item, you must order the new item in the shop and write in the notes that it is an exchange matter. We do not capture the payment for the new purchase but settle when we receive your exchange item. However, the amount will appear as reserved on your account.

PAY ATTENTION TO:

Free exchange service does NOT apply to items sent abroad or purchased at a reduced price. If you receive a discount as a business customer, the rules described in the business agreement apply.

The free exchange service also does not apply if you have ordered items in selection, custom-made items, or items ordered home especially for you.

The same rules apply regarding responsibility for returned items in case of exchange as in case of regret.

Should you regret your purchase after we have exchanged at no cost to you, we reserve the right to offset the additional freight costs we incurred in connection with the exchange.

If you regret your purchase, you must therefore notify **us no later than 14 days after you have received the item**, which you do by writing to support@nordic-rainwear.com. **Remember to state the invoice number!**

Flexible or extended time for return / exchange

In certain situations, there may be a need for an extended period for regret or exchange. This applies, for example, at Christmas, when items bought in December always can be exchanged or returned throughout January.

If your purchase is a gift and you have bought gift wrapping from us, you can get an extended period of regret or/and exchange by writing to support@nordic-rainwear.com. The period for regret can be extended to 60 days. After this, the gift recipient has further 14 days to send back the purchased item. PLEASE NOTE:

You cannot regret your purchase by refusing to receive the package or failing to collect it from the parcel shop.

You can choose to return parts of a purchase, but shipping costs are not refunded neither fully nor partially. If your total purchase after partial return falls below the free delivery limit, shipping costs will be added to your remaining order and deducted from your refund.

The right of regret / exchange does not apply to items manufactured especially for you. It also does not apply to items ordered home especially for you and which do not appear in the shop at the time of your purchase. Due to legislation, items which must be ordered home especially for you are not sold as distance sales via the shop.

If you use your right of regret, you will have to pay the return costs yourself. The situation is different if you want to exchange an item (read more below).

Services (e.g. gift wrapping) are not refunded. Shipping costs in addition to delivery to the parcel shop are considered optional and are also not refunded.

We do not recommend returns by letter or franked package without Track & Trace. If the package gets lost, you risk losing both the returned item and your refund.

Item condition:

Please note that you must return the purchased items in unused and undamaged condition to get your money back. This means, among other things, that:

- it must be properly packed in packaging similar to the one in which you received it
- it must not have been used
- it must be returned in original and intact bags, boxes, etc.
- it must be returned with all hanging tags and any repair and maintenance kit
- no stickers may be written on, added or removed from boots, bags, boxes, etc. Shoe boxes are considered part of the product when you buy rubber boots, waders, etc. They must therefore also be intact and must never be used as return packaging.

Try the product at home in your living room:

You are of course allowed to try the purchased item at home in your living room - but leave all hang marks etc. on. When trying on rubber boots etc. stand on a carpet to avoid scratches. Items that have body odor, are worn or damaged will not be refunded. Items that have been washed are also not returned, as the product's waterproofness can be destroyed by incorrect washing.

Return packaging, return freight, fees, etc.:

Keep the packaging you receive your purchase in until you are sure you want to keep it. We do not refund any costs you may have incurred for return packaging when you choose to return an item.

We also do not refund return shipping costs and any fees you may have had for a bank, credit card or payment supplier, etc., when you paid for the order.

Return after putting into use:

According to EU legislation, you also have a 14-day right of regret on a product, even if it has been used. However, the item still must be able to be sold as new, and it is solely our assessment, based on the condition of the item upon receipt, how much of the item's original selling price we will refund. Since NORDIC-RAINWEAR does not sell second-hand goods, items that show signs of having been used will be set at very little or no value at all. If you add to this that you must pay the return costs etc. yourself, you will often be better off if you sell the used item to another party.

If in doubt, write to support@nordic-rainwear.com before you send the item back.

When will you get the money back?

When your return item has been received at the above address and assessed by NORDIC-RAINWEAR, we will refund the current amount to the credit card or via the payment method the item was paid for. Return cases are processed within 3-5 working days. However, be aware that it may take some time before the amount is available in your account, depending on the payment method you have used.

We do not refund services (e.g. gift wrapping) or extra costs for shipping.
